

The Trash Rat!

©2009 by Chris Iozzi

Trash Rat, is that a jar of Asian Long-Horned Beetles ?

YES IT IS!! My cousin in China sent them to me. He said to let them loose in the woods and watch the hilarity ensue!

Trash Rat, don't you know those are an invasive species that if left unchecked can wipe out an entire forest with reckless abandon?

*REALLY???!
We must be related!*
