Rte 6 Re-zoning upgrade– during this meeting the subcommittee worked on reviewing the various changes that would be required to the zoning ordinance should the proposed “general business mixed use” classification was approved with regard to the Route 6 zoning upgrade and commercial nodes.

The subcommittee started to review the zoning ordinance page by page to determine what, if any, changes should be made to various sections. Once a portion of that was completed the subcommittee turned to reviewing the proposed request that needed to be sent to the Town Council for review and comments.

No votes were taken during this meeting.
