Honorable Council Members:

The State of Rhode Island Historic Cemetery Commission in cooperation with the RI DOT has produced new cemetery signs for a number of our Historic Cemeteries. They are now ready to be picked up. The Foster Preservation Society lacks the capabilities to transport them and is requesting the assistance of our Highway Department in transporting these from Jefferson Blvd. to Foster for later installation.

There are 62 signs along with associated poles (2 part sections) and attendant hardware. If you are able to assist in this, please let me know and I will get the necessary contact information.

I appreciate your consideration in this matter.

Respectfully submitted,
